Government St., near Victoria Hotel.

Refuses Preference

Chancellor of Exchequer Will
Not Give It to Colonial
Sugar.

He Says It Might Endanger the
British Trade With Foreign
Countries.

Preferential Trade With Canada
Had Not Benefited the
Mother Country.

London, June 20.—During a discussion
of a clause of the finance bill in the
House of Commons, today, the Chancellor
of the Exchequer, Sir Michael Hicks-
Beach, informed the mover of an amend-
ment providing for a preferential duty
on sugar from the British Colonies that
he had no intention of embarking on such
a policy.

"It would, he said, benefit neither this
country nor the colonies, and would de-
prive the exchequer of revenue without
benefitting the consumer, and might en-
danger trade with foreign countries.

"There was a strong feeling on this
subject in Germany, and the amendment
would mean running a serious risk of
losing the most favored nation treatment
of the trade Britain now enjoyed in Ger-
many.

"If preference was extended to sugar
from one colony (sic) Australia would
want special treatment for other products
and then foreign countries would offer
the same concessions to colonies, and ask
for similar treatment.

He was not prepared to risk the loss
of Great Britain's foreign trade, which
was greater today than the trade of the
colonies. The preference granted by
Canada had not greatly benefited trade
between that colony and Great Britain
for the simple reason that the preference
granted still left a protective duty
against the British and in favor of the
Canadian manufacturers.

Although British trade had largely in-
creased with Canada, the trade of the
United States with Canada had also
largely increased.

The amendment was negatived by a
vote of 306 to 16.

SIAMROCK II.

Will Be Ready for a Trial Spin Next
Thursday.

Glasgow, June 20.—The Siamrock
II's new mast was stepped today. The
new spar consists of a hollow steel pole
100 feet long, built in a single piece
steel truck. It is the first spar of
its kind ever made. The advantage is
claimed for the new mast that it saves
top weight and also presents a smaller
wind surface. It permits of dispensing
with gear for the hoisting and lowering
the topmast, and it is believed that
the single spar will be hoisted more rig-
idly than a spliced telescopic one. The
chief disadvantage of the single-piece
pole lies in the impossibility of housing
the topmast during heavy weather. In
this respect it is pointed out that this
mastwork has been resorted to but once
in the history of the ship, namely, Sir
Thomas Lipton and Mr. Watson were
present when the mast was stepped. The
challenger's sails are due to arrive next
Monday, and the yacht will take her
first spin under the new canvas on
Thursday.

THE WOOLLEN INDUSTRY.

Manufacturers' Association Will Discuss
It at Coming Meeting.

Montreal, June 20.—(Special.)—The
Canadian Manufacturers' Association will
hold its annual meeting in Mon-
treal on September 25 and 26. F. W.
Bland, of Toronto, the secretary, who is
in the city conferring with the man-
ufacturers, says the most important
question will be the injury done to the
woollen industry by the preferential tariff.
The manufacturers have to compete, he
says, with cheap material from other
countries shipped to England and then
to Canada. During the past year 84,
000,000 of such goods were imported.
The result is, he claims, to close the
factories, a harm in Hespeler, Ont., recently
closing 200 out of 600 men. What
they need, he says, is a higher protective
tariff and unless they get it the woollen
industry will continue to decline.

MR. ASQUITH PROTESTS.

Repudiates For His Party Pro-Boer
Resolutions.

London, June 20.—Herbert H. Asquith,
the Liberal home secretary, speaking
at a Liberal dinner this evening, pro-
tested against the pro-Boer resolutions
adopted at Queen's Hall yesterday being
accepted as a pronouncement of the Lib-
eral party. He declared that Boer inde-
pendence was impossible, and said the
Liberal party favored a free federal
South Africa on the lines of Canada and
Australia.

A MOUNTAIN GOAT.

Capture of a Yearling on the Squamish
River.

Vancouver, June 20.—(Special.)—Mr.
Pugh of Vancouver, taxidermist, has re-
turned from a most remarkable trip.
With two companions he travelled 40
miles up the Squamish river, and believes
that he was where no white man has ever
been. He was away two months, his
object being to catch mountain goat for
the British zoo, as big prize money is to
be made out of goat catching if one is
successful. He succeeded in capturing a
yearling goat alive. He says this is the
first time such a feat has been accom-
plished. He values the goat at \$2,000.
He captured seven kids, but they only
lived three days, as they had to be pick-
ed over the snow. Mr. Pugh says that
he saw grizzlies, which to use a Swiss
expression, were as big as cows. Game
was very plentiful, and if he had had a
camera, he could have made some record
shots of the world's shyest animal, the
goat, and also of bears playing with
cubs. The animals in these far-off
haunts are not so afraid of man as other
animals, and to illustrate this, when he
was packing his cub on his back over
the mountains, she would reach her head
down when they came to a bunch of
grass and nibble at it. The goat cap-
tured is a female. The only other goat
in captivity, is a male in the British zoo.
The zoo goat came from British Colum-
bia. It was captured however as a
small kid, and reared on milk in the high
altitude where it was captured.

Three More Judges Named

Dominion Cabinet Makes New
Appointments to the Bench
in Quebec.

Expectations to Get Settlers
from "Sooners" in the
Indian Territory.

From Our Own Correspondent.

Ottawa, June 20.—The cabinet today
appointed three new judges, Messrs. Des-
marais, M. P., for Quebec; N. W. Tren-
holme, K. C., for Montreal, and Rochon
for Hull.

The interior department hopes to se-
cure a number of settlers from those now
waiting for the opening of the new lands
in Indian Territory, United States.

Owing to an epidemic of smallpox at
Cleveland, Ohio, special officers of quar-
antine have been stationed at Canadian
ports on Lake Erie.

The parishioners of St. Joseph, Ottawa,
intend to appeal to Rome if Father Fal-
lon's transfer to Buffalo is proceeded
with. Father Fallon is the priest who
had the controversy with Hon. S. H.
Blake regarding the papal oath.

POLITICIANS SUED.

Liberal Candidates at Last Election Ask
to Pay Printing Bills.

Hamilton, June 20.—The Times Pub-
lishing company has taken action against
Messrs. Wood and J. V. Teetzel, K. C.,
both government candidates at the last
general election for Hamilton city, for
\$585.15, the amount of account for print-
ing. Suit appears to have arisen out of
dispute between Senator Wood and
Mr. Teetzel, the latter claiming that
Wood was to have paid all the expenses
of the election.

WILL CONSIDER FINAL OFFER

But Fishermen Do Not Think
It Will Be Accepted by
Union.

From Our Own Correspondent.

Vancouver, June 20.—The leaders of
the white fishermen say the unions will
not accept to consider the final offer of
the canners, but they have no hope that
it will be accepted. They fear the worst.
The Indians have refused to fish unless
the white men do, and without Indian
ketchmen, salmon cannot be packed.
At the present juncture are the only
available fishermen, and the situation is
serious. Circulars were sent to the fish-
ermen today announcing the last offer to
be made by the canners.
As stated already in the Colonist, the
canners are advertising that they will
pay for fish 12 1/2 cents to July 27, and
10 cents thereafter to the limit of 200
to the boat or as many more as they
may pack. The executive in deciding
upon this plan, have not pleased many
of the canners, who believe they have
gone too far, as now no advantage will
be gained by the canners if a very large
quantity should take place. However they will
 abide by the decision of their own
union.
This is the last offer that will be made
by the canners. The offer is made to
Indians, whites and Japanese alike, and
fish will be taken from any fishermen re-
gardless of race or nationality at these
prices. It is significant that white fish-
ermen have left off fishing for small fish
and are actively preparing their boats
and gear for the salmon season.

KILLED AT CHILLIWACK.

Bruce McSwain Has Fatal Accident at
Horse Races.

Vancouver, B. C., June 20.—(Special.)
A Chilliwack on Wednesday during
the horse races, Bruce McSwain, son of
a prominent farmer, was riding a neck
and neck race with another pony at a
hard gallop. The crowd was cheering,
but suddenly became silent as Mc-
Swain's pony began to run into a large
tree. The young rider's head was dash-
ed against a branch. For an instant the
boy lay in the saddle then dropped
dead.

KAISER'S GUEST.

The Czar Will Attend German Army
Manoeuvres.

Berlin, June 20.—The Czar has ac-
cepted Emperor William's invitation to
review the grand army manoeuvres in
West Prussia.

RICE COMMITTED.

Surviving Desperado Will Stand Trial
for Murder.

Toronto, June 20.—Fred Lee Rice was
this morning committed for trial on the
charge of murdering Constable Boyd.

Official Gazette

Tenders For the Preliminary
Work on the Provincial
Reformatory.

Assayers to Whom Certificates
of Competency Have Been
Issued.

Mine Managers Examinations—
Companies Incorporated
—Appointments.

In yesterday's provincial Gazette no-
tice is given to the effect that Hon. J. D.
Prentice having returned to the city, the
appointment of Hon. W. C. Wells as ac-
ting provincial secretary and minister of
education has been rescinded.

The deputy commissioner of lands and
works, Mr. W. S. Gore, is calling for
tenders for desks for the use of the pub-
lic schools of the province. Tenders
must be in by July 1.

A public highway has been established
extending from the vicinity of the North
Dairy Farm straight through to Gorda-
va bay. Work on the road has already
been commenced. It will afford a much
shorter route to the bay, which, during
the past few years, has become a popu-
lar camping ground for Victorians in
summer.

Notice is given that the northeast por-
tion of Central Park reserve, New
Westminster district, which is situated
and lies between the British Columbia
Electric Railway Company's line on the
west, the Vancouver and New West-
minster trunk road on the north, and
the east boundary of the park on the
east, containing 15 acres, more or less,
is eliminated from the reservation which
was placed on lot 151, group 1 notice
whereof was published in the British
Columbia Gazette and dated 14th Janu-
ary, 1891.

Separate tenders for excavating for the
foundations; splitting, preparing and de-
positing stone on the grounds; build-
ing masonry foundation walls and clear-
ing the ground for the provincial re-
formatory to be erected at English Bay,
will be received by the Commissioner of
Lands and works up to today. Tenders
for the construction of a road to the re-
formatory site will be received until to-
morrow.

Attention is called by the Minister of
Mines to the requirements of the Bureau
of Mines Amendment Act under the
terms of which no person is allowed to
practise assaying in the province with-
out having first obtained a government
certificate of efficiency and license to
practise. The fine for an infraction of
the act is not more than \$100 nor less
than \$25. Those candidates who wrote
at the recent examination in this city
and at Nelson and received certificates
are:

Under section 2, sub-section (1)—John
W. Austin, Vancouver; Roy H. Clarke,
Rossland; Norman Carmichael, Nelson;
Alfred D. Cameron, Vancouver; J. C.
Davis, Greenwood; Ed. Dedolph, Kaslo;
R. S. Haselton, Rossland; Ch. F. Nichol-
son, Peterboro; Windermere district;
Walter G. Perkins, Grand Forks; T. D.
Pickard, Kamloops; Blanchard M. Sym-
der, Spass; W. W. Snyder, Vancouver;
Gustav Sunberg, Greenwood; E.
Walter Widdowson, Trail.

Under section 2, sub-section (2)—Arthur
A. Cole, Rossland; Fred. Cowans, Sil-
verton; Howard A. Dixon, Toronto; J.
T. Hagan, Green, Nelson; Reginald E.
McArthur, Rossland; H. Nellis Thomp-
son, Trail.

Under section 2, sub-section (3)—Wil-
liam John Sutton, Victoria.
An examination for certificates of com-
petency as managers of mines will be
held on the 1st day of August, at the
court house, Nanaimo, and at Victoria.
Candidates, not under twenty-three years
of age, desirous of presenting them-
selves for examination, must deliver to
Mr. Thomas Morgan, chairman of
board of examiners, Nanaimo, on or be-
fore the 15th day of July, 1901, notice
of such intention, in writing, together
with a certificate of service from their
former or present employers, testifying
to at least two years' experience under-
standing the examination will be in
writing and will include the following
subjects, viz.: 1. Mining Act and rules.
2. Mine gasses. 3. General work. 4.
Ventilation. 5. Mining machinery. 6.
Surveying and levelling.

Any further particulars required may
be obtained on application to Mr. Mor-
gan, chairman of board of examiners.
The appointment of F. M. Cowperth-
waite as city superintendent of schools
at Vancouver has been approved by the
council of public instruction.

Certificates of incorporation have been
issued to the New Fairview Corporation,
Limited; Sleean Power Co., Limited, and
Spitzee Gold Mines, Limited. The Tex-
ada Gold Mines Company has been re-
registered as an extra-provincial company.

Joseph L. Smith, grocer, of Green-
wood, has resigned.
The following appointments have been
made: Gibson Robertson, of Vancouver,
to be a justice of the peace in and for
the province; Constable C. Nicholson, of
Kelowna, to be chief license inspector
for the Southeast V.C. license district;
vice Constable C. Winter; Edmund C.
Wragge, of Nelson, barrister-at-law, to
be a notary public in and for the prov-
ince; Sydney A. Roberts, A. S. Going,
J. H. McGrover, John McKeuzie and
Albert J. Hills, provincial land survey-
ors, to be members of the board of ex-
aminers under the provisions of the Pro-
vincial Surveyors Act, for the 12 months
ending the 30th June, 1902; Thomas Mor-
gan, of Nanaimo, inspector of coal
mines, to be inspector of metalliferous
mines for Vancouver Island and the
Coast district; John Clayton, of Bella
Coola, to be a stipendiary magistrate in
and for the county of Vancouver.

MR. COURTNEY'S SUCCESSOR.
Former Halifax Bank Manager Will
Probably Get the Place.

Ottawa, Ont., June 20.—It is under-
stood that Mr. J. M. Courtney, deputy
minister of finance, will soon be suc-
ceeded in his own request. His suc-
cessor it is said will be Mr. W. D. Ross,
formerly manager of the Bank of Nova
Scotia, Halifax, who has recently been
appointed to the finance department's
staff here.

QUEBEC BRIDGE.

Caisson for the Extensive Work Safely
Launched.

Quebec, June 20.—(Special.)—The cais-
son for the Quebec bridge was launched
with success this morning and twenty
minutes after 10 o'clock it had been
towed and fixed in its proper place.

THE STRIKE

ON THE C. P. R.

Company's Officers State That Some Men Are Return- ing to Work

Montreal, June 20.—Mr. McNeill, of the C. P. R., stated tonight that reports are still coming to hand from various points along the line showing that the men are returning and that no difficulty whatever has been experienced in the handling of the traffic. The company feel confident that the strike cannot last for many days for the reason the men have failed to secure the sympathy of the public.

Inquiry at the head of the C. P. R. to night elicited the information that many meetings are being held by the trackmen at different points on the system, and that they have asked the company's local officers to meet them. A considerable number of the men returned to work today, and the position is continuing to improve as the men become fully informed of the actual conditions existing on the C. P. R. as compared with other roads. Every foot of the track is patrolled daily and trains are running with accustomed regularity.

Vancouver, June 20.—(Special.) The C. P. R. strike situation is unchanged. Mr. Townley, assistant to the superintendent, states that they are sending men out daily to take the place of the strikers, and there is no trouble. The train today is officially said to be delayed by a land slide.

Calgary, June 20.—(Special.) The striking C. P. R. section-men here have sent a message to the grievance committee at Montreal, asking them to accept the company's terms. The feeling is that the company has acted fairly with the men, and that an opportunity should now be given to let the advance and new conditions conceded by the company become effective.

Montreal, June 19.—The following letter has been issued by President Shaugnessy, of the C. P. R.:

Montreal, 18th June, 1901.
Men in Maintenance of Way Department, Who Are at Work, or Who Have Succeeded Work:

I have seen the circular issued by the operating officers to the trackmen this afternoon, and therefore feel it a duty to urge the men, many of whom have been in the company's service for several years, to consider the situation carefully before finally abandoning their occupation. The committee had an interview with me, at which I heard and gave the greatest attention to everything advanced in the interests of their fellow workmen. Had there been the slightest room for concessions beyond those already made by the company's officers, matters would not have been permitted to reach an acute stage. Men charged with the administration of the company's affairs are justified in according to employees the highest pay prevailing on neighboring railways, and the greatest consideration in other respects that the circumstances will permit. They go beyond this they are open to the accusation of incompetency or extravagance. The company has no quarrel with the men in the maintenance of way department. There is no desire to show resentment for what has been done in the past. On the contrary, it is hoped that, having given the committee all promised support, every man will return to his work promptly so as to obtain the advantage of the excess of the system, and a very large annual sum, that the company feel justified in making, and to give to the company and its officers the same loyal service and support that has characterized every branch of the service from the beginning. In dealing with your committee, the company was not governed by petty or technical considerations. From the time the discussion commenced the only question was as to what should properly be done in the direction of meeting our, and as soon as this was determined it was put into effect immediately. The moderation and good sense that you have displayed on nearly every section of the system since the trouble commenced yesterday morning bears testimony to your work as employees, and makes the company the more anxious to retain your services if at all possible. Apart from every official consideration, I would be sincerely sorry if any of the old employees should leave us to accept other service without the certainty of improving their position.

(Signed, T. G. SHAUGHNESSY, President.)

CROPS IN EUROPE. Unfavorable Weather Has Had Very Bad Effects.

London, June 20, June, which began in western and northern Europe with premature August-like heat, has become in the past week abnormally cold. Great Britain, France, Germany, Austria and Italy alike have suffered. Some nights have been frosty. The thermometer at Greenwich on Tuesday registered 28 degrees. There were similar temperatures in parts of France and Italy, while snow was common in Austria and Hungary. The weather has had the most effect on the crops everywhere. It is stated that the wheat crop in France has been ruined. The almost unbroken drought in England during the month has destroyed the hay crop and seriously checked others. The temperature rose slightly on Wednesday, and there was some rain.

U. S. TARIFF.

Mr. Charlton Says Canada Will Take Steps to Equalize Things.

Detroit, Mich., June 20.—In addressing the members of the Bankers' club here on Thursday evening, Mr. John Charlton intimated that if the United States were not willing to modify the tariff, the great mass of Canadians were favorable to retaliation by the adoption of a similar tariff against the United States.

MARTELL'S THREE STAR BRANDY.

OF ALL WINE AND
SPIRIT MERCHANTS.

AT ALL BARS
AND RESTAURANTS

GENEROUS STRATHCONA.

Has Presented Ten Thousand Dollars to Presbyterian Fund.

Montreal, June 20.—Lord Strathcona has given \$10,000 to the Presbyterian Century fund.

ENGINE EXPLODES.

Fatality by Accident in German Torpedo Works.

Berlin, June 20.—An engine in the torpedo works at Friedrichsfeld, near Kiel, has exploded killing an engineer and wounding a number of persons.

DUNKIN ACT.

Last Local Prohibition County in Quebec Repeals It.

Richmond, Que., June 20.—The Dunkin Temperance act, which has been in force in Richmond for several months, was repealed today by a majority of over four hundred. This was the last prohibition county in Quebec.

KILLED BY ENGINE.

Old Man Was Walking on the Railway Track.

Orillia, June 20.—(Special.)—David Broderson, while walking along the Midland track towards the station yesterday, was struck by an approaching passenger train and instantly killed. He was aged 79 and an old resident.

STRIKE AT ROYALTY.

Drunken German Breaks Glass of Crown Prince's Carriage.

Berlin, June 20.—While the Crown Prince Frederick William was on his way from Minder to Bonn, a drunken individual approached his carriage at Bochum, Westphalia, yesterday, and aimed a blow with a stick at the window at which the Crown Prince was seated. The individual, who described himself as a clerk, was arrested. He said he merely desired to see the Crown Prince more clearly.

STRIKE ON BLUE BIRD.

Large Body of Ore Encountered on Thousand Foot Level.

Rossland, B. C., June 20.—A strike of considerable importance has been made on the Blue Bird mine, which is operated by the Montana Mining company. The property is situated on Lower Arrow lake, about four miles from Deer Park. A few days since on the one thousand foot level the main ledge was encountered and crossed for sixty feet, then there was an influx of water, which drove the miners from the working. Although the ledge had not yet been fully crossed, assays show that the ore goes about \$25 to the ton, but a picked sample went as high as \$500.

Mr. Wm. Lambert, the expert of the company, has purchased a 10-horse power boiler, a 25-horse power hoist and sinking pump. The workings will be pumped out as soon as the plant is installed, and the development will be pushed on a larger scale than ever to the end that shipments may be commenced at the earliest possible moment. The ore is silver-lead, carrying considerable copper.

"SHOCKING AND SCANDALOUS."

Mr. Balfour Denounces Tactics of the Pro-Boer.

London, June 19.—The Daily Mail's special meeting secured the services of six or seven hundred "stalwarts" as stewards. These "gangs of foreign ruffians" were found inside the hall, according to the Daily Mail, "ready to keep order and eject the malcontents." The "stalwarts" were drawn from the low class foreign clubs in Soho. Many of them were armed with sticks, brass knuckles and knives, and they acted with unrestrained violence in excluding rowdies and throwing out undesirable persons.

A. J. Balfour, first lord of the treasury, in a speech tonight at a "conservative" banquet in London, made a strong protest against the action of the pro-Boer movement, thereby prolonging the war and adding to the already great difficulties and sufferings of the South African people.

"It is shocking and scandalous," said Mr. Balfour, "that such men should, before the whole world, accuse their fellow countrymen and soldiers of carrying on war by barbarous methods."

PRESBYTERIAN ASSEMBLY.

Will Join With Methodists to Get State Precedence Abolished.

Ottawa, Ont., June 20.—(Special.)—The Presbyterian assembly concluded its labors today. The appointment of an assembly executive was remitted to the presbytery for the consideration of what the executive would deal with.

The report of the committee on ordination of students recommended that any student in divinity having successfully passed the first year may be ordained by the home mission committee to work in certain fields. This is a step which was found that in outlying fields where the students of other denominations were allowed to baptize and marry the people resorted to them while the Presbyterian church was confined to his preaching and burying.

A communication was received from Rev. C. Brown, superintendent of the Methodist church regarding precedence at state ceremonies, and asking for cooperation in seeking to have precedence abolished. The question originally came up in connection with the funeral of the late Sir John Thompson. It was decided to co-operate with the Methodist assembly. It was also decided to unite the views of the Presbyteries in reference to the reduction of representation in the assembly, and the institution of a fund to pay the travelling expenses of missionaries. This action is the outcome of an overture from Victoria to the Presbytery calling attention to the heavy expense entailed on western delegates to the assembly.

Uncle Sam's Cool Offer

That Russia Should be Allowed
to Settle Alaska Boundary
Dispute.

Sir Wilfrid Laurier Points to a Real Arbitration Pro- posal.

Ottawa, June 20.—The published statement to the effect that the United States would prefer to submit the Alaska boundary claims to Russia's arbitration, was called to the attention of Sir Wilfrid Laurier today. He was asked if he would be willing to concur in such a proposition.

"No such proposal has reached me yet," replied Sir Wilfrid. "When a proposition is made my government will be ready to consider it. It was asked, 'You were willing to submit the claims to arbitration when the joint high commission was sitting were you not?' he was asked, 'Oh, yes,' was the Prime Minister's reply. "Look at the late protocol laid before the house. Protocol 43 of the joint high commission contains the offer of the British commissioners. The British commissioners represented that, having been unable to agree on that question, it should be referred to arbitration."

The articles are very lengthy, but the proposal was that the tribunal consist of three, one on the part of Great Britain, and one on the part of the United States, and a third to be selected by these two. The general opinion is that Russia will not be satisfied with a Great Britain.

TO VISIT DAWSON.

Principal Sparring Will Inspect Methodist Mission There.

Winnipeg, June 20.—(Special.)—Principal Sparring of Wesley college, has left for Dawson City to inspect the Methodist mission.

The Winnipeg Rowing Club will send twelve men to the international regatta at Philadelphia in July.

A LIBERAL SPLIT.

Comments on Mr. Asquith's Speech on the Pro-Boers.

London, June 21.—By his strength and strong speech last night, Mr. Asquith achieves the complete severance of the wings of the Liberal party. This was done to the great joy of the Conservatives, whose press organs this morning cannot find words sufficient to applaud the courage and honesty. The press is of the opinion that the party of many leaders will now find greater difficulty than ever in discovering who is the real leader of the party.

The Daily Chronicle hails Mr. Asquith as the true leader, and calls upon Sir Henry Campbell-Bannerman to declare with equal explicitness whether he will follow John Morley's banner.

The Daily News says that the smouldering discontent of those calling them selves Liberal-Imperialists have at last burst into flames, and that it is deplorable that Mr. Asquith of all men should seem to lead the movement of revolt, which can end in nothing but the repudiation of Liberalism.

"It is the duty of Liberals," says the Daily News to now loudly support Sir Henry Campbell-Bannerman.

It may safely be predicted that Mr. Asquith will find a very large following both among the Liberal members of the House of Commons and the country generally.

PASSENGERS.

Passengers per steamer Charnier from Vancouver.

Mrs. St. John, Miss Smith, Miss Davis, Miss Hall, Miss Stoddard, J. Scott, J. Hunter, J. B. Hunter, Mr. H. Mallin, Mrs. Mallin, Mr. Phillips, H. L. Adreon, Mrs. Adreon, H. Jukes, C. R. Hamilton, G. S. Cronin, G. D. Johnson, Master Sinclair, Mr. Bowler, Miss Alcock, J. E. Dixon, Mrs. Lamale, H. E. Smith, Mr. Sinclair.

Passengers per steamer North Pacific from the South.

Mrs. Eleanore, Miss Fidler, Miss Chisholm, Jack Balle, R. J. Wunell, Miss Rose, Miss Bell, H. Jones, W. A. Wilson, Mrs. Wilson, C. Cork, W. A. Pullman, Mrs. Bridgford, Miss Keys, M. Benson, Mrs. Green, S. J. Thompson, J. P. Warren, Mrs. Green, Mrs. McEnder, J. Jackson.

Passengers per steamer Rosalie from the South.

H. Holm, H. W. Martin, D. A. Stogder, J. Wolf, Dr. O. M. Jones, Mrs. Jones, M. Hazard, J. Donald, J. Went, E. McDonald, A. Pearson, E. Hall, A. McHenry, J. Tallman, Capt. Martin, Capt. Wallace, D. Lynch, H. Minden, Mrs. Greenwood, C. H. Burnett, G. H. Kuhn, Mrs. Burnett.

Misses Johnston, F. J. Murphy, T. Roberts, J. McNeil, Mrs. Eastland, J. Galt, G. F. Faison, Mrs. Faison, Mrs. Foster, Mrs. Reynolds, W. B. Buckley, Mrs. Monk, Master Monk, A. Becker, Mrs. Johnston.

CONSIGNEES.

Consignees per steamer Rosalie from the South.

THE IRON OUTLOOK.

Some Estimate of the Immensely Increased Production.

The pig iron make of the world in 1899 was in round figures, 20,500,000 tons, and in 1900 about 25,000,000 tons. There is no evidence says Engineering to show that the normal consumption of the world has increased in the same proportion. The production in that line of course, matter of estimate, but the facilities are being increased enormously. In the United States the furnace under construction will be able to make about 2,000,000 tons per annum. Germany is building furnaces which will together have a capacity of not less than 600,000 tons. Canada are credited with a capacity of 100,000 to 200,000 tons. Few new furnaces are building in Great Britain, but it is estimated that those under construction and which produced nothing in 1900, will be equal to adding 750,000 tons to the supply before the end of the present year. Reports from France, Spain, Italy, Austria and Belgium account for twenty-four furnaces under construction, which will together have a capacity of not less than 600,000 tons. The sum of these new capacities is equal to not less than 6,000,000 tons per annum. If the conditions are favorable, may swell the pig iron production by the beginning of 1902 to over 30,000,000 tons per annum. At the very least, a production of 25,000,000 tons is not at all improbable.

Whether the world can even for year, consume so much iron is a question which most thoughtful students of trade statistics are disposed to answer in the negative. With superabundant pig iron and prices such as invariably attend over-production, the price of other and higher products of which pig iron is the basis, cannot be sustained. As the result of the impetus now experienced in America, it is quite probable that the New York Times puts it, that for the remainder of the year, and through at least a part of 1902, the volume of business in iron and steel will be the greatest the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the world has ever known; but if, as the result of over-production, stocks begin to accumulate and to congest the channels of distribution, a sharp and more or less protracted reaction may be expected. And, of course, it will be the more pronounced if the

The Colonist.

FRIDAY JUNE 21 1901.

Published by

The Colonist Printing & Publishing
Company, Limited LiabilityNo. 27 Broad Street, Victoria B. C.
PERCIVAL R. BROWN, Manager.

THE DAILY COLONIST.

Delivered by carrier at 20c. per week, or
mailed postpaid to any part of Canada
(except the city) and United States at the
following rates:

One Year	\$3.00
Six Months	\$1.80

THE SEMI-WEEKLY COLONIST

One Year	\$1.50
Six Months	.75
Three Months	.40

Sent postpaid to any part of Canada and
the United States.

TERMS STRICTLY IN ADVANCE.

NOTICE TO ADVERTISERS.

All new advertisements and changes of
advertising, to ensure their being inserted,
should be handed in to the business office
not later than 6 p. m. Advertising will be
accepted up to 8 p. m. at the business office,
but insertion cannot be guaranteed. For
urgent advertising after 8 p. m., consult the
Night Editor.

#10 REWARD

Will be paid for such information
as will lead to the conviction of
anyone stealing the Colonist from
the doors of subscribers.

THE BY-LAWS.

Let us look at the proposed by-laws
from a practical point of view.

First: The James Bay project. Is it
necessary? We think so, and for these
reasons:

The existing bridge has already out-
lasted what all competent engineers say
is its life as a structure subject to the
traffic which it has to carry.

The existing bridge is inadequate to
existing traffic; because it cannot carry
street cars equal to public require-
ments and the small cars now used are
not permitted to cross it fully loaded;
because it is compulsory to walk horses
across it, which means loss of time and
inconvenience; because it cannot be
double-tracked for tramway purposes;
because the accommodation for foot pas-
sengers is inadequate.

The existing bridge, having come to be
in such a condition that no engineer will
pronounce it safe for any length of time,
the city will undoubtedly be liable in
heavy damages if any accident should
occur.

The present condition of the mud flats
is a menace to the public health, and the
condition is rapidly growing worse, and
the provincial health authorities may at
any time take steps to compel the city
to remedy the evil.

The filling in of the tide flats will
create a valuable piece of property,
which will be owned by the city.

The existing bridge and the present
condition of the mud flats are an eye-
sore to every one and a discredit to the
city.

This question has been before the pub-
lic a great length of time, but while we
have heard and read many statements in
opposition to it, we have heard or read
no reasons advanced against it. A cor-
respondent thinks that the re-claimed land
will not be worth as much as the Mayor
thinks. Suppose it will not be, that does
not affect the necessity for a new means
of crossing James Bay, and a causeway
is far better than a bridge, and with a
causeway there must be the filling of the
flats. Even if it were decided to build
a bridge, it would be necessary for sani-
tary reasons to do something with the
flats. It is contended that the city can-
not afford this work. This is an objec-
tion that is raised to every proposal of
this nature. We think the facts show
that the city cannot afford not to make
the improvement.

Second: The Point Ellice bridge. No
one has disputed the absolute necessity
for replacing the present temporary
structure by a permanent bridge. A
bridge sufficient to carry any kind of
vehicular traffic there is absolutely nec-
essary, because it connects two parts
of the city and is the only public means
within the city whereby they are con-
nected; because the Imperial Naval sta-
tion is thereby brought into direct con-
nection with the city, and the importance
of the Naval station to Victoria can best
be judged by the fact that the disburse-
ments there, now upwards of a million
dollars annually, are steadily increasing;
because the present bridge will shortly
be condemned by the Dominion govern-
ment; because if the present bridge were
allowed to stand, it is inadequate to the
demands of tramcar traffic between Victoria
and Esquimalt.

The tramway company may pay one-fourth
of the cost of this structure, provided
the whole cost does not exceed \$800,000;
if that sum is exceeded the contribution
of the company is to be limited to \$20,
000.

The objection raised to this project is
that the city ought to erect its own
bridge and the tramway company its
bridge. The answer to this is that it is
more than doubtful if the Dominion gov-
ernment would permit the erection of
two bridges at that point when one will
suffice. The "can't afford it" objection
is also raised, but the city must afford
it, or the eastern part of Victoria will

Victoria Opposite Driford Hotel

be cut off from Victoria West and Es-

quimalt.
The paving of Government street: The
arguments in favor of putting down a
permanent pavement on Government
street are the same as those which led
to the paving of other streets. Doubtless
there are people who think the present
street good enough. There is no account-
ing for tastes, and to address an argu-
ment to a person, who thinks the prin-
cipal business street in the city and that
leading to the parliament building
should be left as it is, would be a waste
of time.

The High School: The argument
against the High School by-law is that
we do not need a High school. As, if
the desirability of maintaining the High
school is admitted, the building to ac-
commodate it must be provided, it is im-
portant to ask what is the argument
against a High school. It was expressed
by a correspondent, who used the
signature "Laborer" in yesterday's Col-
onist. It is that we have too high a
standard of education. This might be an
argument for changing the law of the
province, but while the law remains as
it is, it seems worse than folly not to
take advantage of it. We take it for
granted that the people of Victoria do
not propose to advertise to all the world
on Monday next that they intend to take
a place behind every other city in the
province. If this is the case, it is nec-
essary to vote the money for the High
school, because if it is not voted, either
the school must be closed, or further ad-
ditions to the number of pupils attend-
ing school must be prohibited, or the
children must be crowded in a manner
highly prejudicial to health.

If we do not provide a High school,
we will lose the government grant in sup-
port of it.

We hear it freely said that the chil-
dren of the workmen of Victoria are
being educated beyond their station. We
have never thought to hear this in a
Canadian city, and we would be much
obliged if some of those persons who
talk this way would avail themselves
of the columns of the Colonist to tell
the public what the station of a work-
ingman's child is in Canada, and also
that they shall sign their names to their
opinions, so that the public may be able
to judge of the fitness of such argu-
ments in their mouths.

IN SOUTH AFRICA.

The pacification of the Transvaal pro-
ceeds much more slowly than was hoped,
but the end is near enough in sight to
warrant a few observations on the war,
and what led up to it. There is no
longer any room for doubt that President
Krugger and his party deliberately con-
templated and planned the driving of
the British out of South Africa. Evi-
dence on this point is so conclusive that
only those who are wilfully blind to the
facts can fail to see it. What is still
more evident is that they came very
near being able to do it. If Joubert's
campaign in Natal had proved successful,
and he had been able to march to the
sea at Durban, the Cape Dutch would
have risen almost en masse, and it would
have been, perhaps, beyond the resources
of the Empire to have come out of the
conflict successfully. What the Empire
owes to White at Ladysmith, Baden-
Powell at Mafeking and Kekewich at
Kimberley will not be fully appreciated
until there has been time to fully learn
all the facts of the case.

History will sift the evidence, and its
verdict will be that the war was the
result of the dream of the Boer leaders
of a South African republic extending
from the Zambesi to the Cape. We are
not disposed to find fault with those who
cherished such an ambition. They had
the right to do so, but on the other
hand the British Empire had a right to
oppose such designs. When once hos-
tilities were precipitated, there could be
no stopping on our part until the inde-
pendence of the Boer republics became
a thing of the past. The shouting is now
pretty well over, and we can all look
at the matter more calmly. Just as the
struggle was precipitated by causes not
generally understood, so the resistance
of the enemy has been much greater
than was supposed possible. The strife
will leave the Transvaal in a sad plight
and the Orange River Colony little better
off. It is all very melancholy, but it is
all likewise inevitable.

We like to deal fairly by every one, but
for the life of us cannot see what the
grievance of the C. P. R. trackmen is.
The men seem to have been relatively
well paid and to have been well used. If
under such circumstances a strike takes
place, it seems difficult to conceive of
circumstances under which men will be
contented. The sympathy of the public
is with the railway company, which has
the deserved reputation of dealing fairly
by its men. At the same time the men
deserve credit for the peaceful manner
in which they have acted. Surely there
ought to be no difficulty in reconciling
all difference between a company with
such a record and men, who have shown
themselves so very moderate in their
conduct after striking.

The lynching of negroes in the South-
ern States continues. Nothing can be
more discreditable to a civilized country
than this. Seeing that lynching has
failed to prevent crime, why do not the
lynchers try legal means of punishment?
We greatly fear that the time will come
when the negro population will be goad-
ed to retaliation, and if that ever is the
case, the amount of suffering that will
be caused will "stagger humanity." We
can imagine nothing worse than an up-
rising of the negro population in the
South.

A strange story comes from Copen-
hagen. It is that the United States has
demanded that Denmark shall either sell
her possessions in the West Indies or
shall fortify and garrison the islands of
St. Thomas and St. John, on the ground
that they command the entrance to the
Nicaragua canal, and must be kept out
of the hands of any other nation. This
seems like a piece of international im-
pudence, which is all the more remark-
able seeing that the Nicaragua canal
has not been built and may never be.

The Halifax Chronicle is authority for
the statement that the people of Canada
are no wiser now in regard to the result
of the census than they were six months
ago. It says that no information what-
ever has been given out.

MUNYON'S
COLD
CURE

Nearly everybody seems to be taking Prof. Mun-
yon's Cold Cure whenever a cold appears. It
relieves the head, nose, throat and lungs so quickly
that a cold need no longer be a forerunner of grippe,
diphtheria or pneumonia. A vial of the Cold Cure
is like a life insurance policy. Every one of his
remedies is as sure. Mostly 25c. vial. Guide to
Health free. Munyon, New York and Philadelphia.
MUNYON'S INHALER CURES CATARRH.

It has been asserted and officially de-
nied that any negotiations are in pro-
gress between the United States and
Newfoundland looking to a reciprocity
treaty. Notwithstanding the denial, the
original statement is repeated, and it is
alleged that the denial is only a bit of
official quibbling. Newfoundland ought
to be a part of Canada.

Much anxiety is felt as to the con-
dition of the fishing industry. It will be
a very unfortunate thing if the opera-
tions of the ensuing season are to be
interrupted as were those of last year.
The loss is not confined to the fishermen
or the canners, but is felt by the whole
Coast section of the province, and prin-
cipally by Vancouver and New West-
minster.

AN HONORABLE MEDICINE.
That appeals to the best judgment of the
best people is Dr. Chase's Kidney-Liver
Pills, the greatest prescription of Dr. A.
W. Chase, the famous Recline Book author.
By acting directly and specifically on the
liver, kidney and bowels, this popular fam-
ily medicine thoroughly cures liver com-
plaint, biliousness, kidney disease, constipa-
tion and the accompanying pains and aches.
Dr. Chase's Kidney-Liver Pills act promp-
tly, pleasantly and naturally. One pill a
dose. 25 cents a box.
